Trees are important for our health and
Before no trees and all the smoke from the cars is not good for us.
You can not see the smoke but it is there it makes you sick and cough a lot when there is no trees around
After a few trees it helps take away the smoke from the cars and then the air is clean.
happiness
Before no trees it is very sad because when it is hot you can go under a tree and may be grow a apple tree and get some tasty apples. You can have a picnic with your family too
After a few trees you can have fun with your family and can plant a apple tree all the animals can have fun and find food now
